

Vruksh Raksha Bandhan

World Ozone Day

16/9/2010

“Vriksha Raksha Bandan” was celebrated with 300 students of the school. This event highlighted the importance of trees for sustaining the eco system of the world and also the role played by trees to prevent ozone depletion by arresting pollution.

The students adopted each tree on campus as a brother or a sister and tied rakhis around it as a symbol of brotherhood, pledging to protect it for life. The Chief guest was Mrs.Krithiga Udayanidhi [Chairperson of 5 ten lights out], who addressed the students and also asked them to carry this idea forward by planting a sapling on their birthdays and watching the trees grow along with them.
